

11 March 2024

Kia ora,

## Great North Road Improvements

Auckland Transport and its contractor JFC Limited are pleased to announce the completion of the preparatory works for the Great North Road Improvements project.

During this stage of the project we have:

- Upgraded stormwater services in the areas near Northland Street and Potatau Street
- Installed 44 tree pits. Trees will be planted during the main project works.
- Installed new ducting for streetlights, traffic lights and new dynamic bus lane cameras.
- Gathered important information about the location of underground services. This will be used to inform the final design.

We understand that work of this nature can be disruptive to residents and businesses. We thank you for your patience and cooperation during this stage of the project.

The main construction of the Great North Road upgrades is expected to begin in the second half of 2024. We will provide more information closer to works starting.
