

Construction of a roundabout on Franklin Road starts in January 2018

The start of 2018 will see the construction of a roundabout at the Franklin Road, Wellington Street and England Street intersection.

Featuring pedestrian crossings on all feeder roads, the roundabout will offer cyclists safer passage through the intersection.

Speedtables fringing the roundabout ensure that traffic slows down prior to entering the intersection, adding to safety for pedestrians and motorists.

Roundabouts are efficient and safer than four-way intersections or signalised intersections as drivers only make left turns, all traffic is moving one way and vehicles are moving at a slower speed.

A new roundabout will feature at the Franklin Road, Wellington Street and England Street intersection.

Works cease from 10 November to 27 December, 2017

Access to Franklin Road from Victoria Street will resume in November as we cease all works till after Christmas.

We are pleased to announce the completed underground installation of the 400m of HDPE stormwater pipe between Wellington Street and Victoria Street in the 10 weeks that we have been at work.

We thank you for your support and look forward to starting the construction of the roundabout on our return after Christmas.

Annual Franklin Road Christmas Lights Display

We will have stopped work and tidied our construction zone and the road, ahead of the annual Christmas lights display. Works stop from 10 November to 27 December 2017.

Closure of Wellington Street and Franklin Road Intersection in January and early February 2018

Wellington Street where it intersects with Franklin Road will be closed to traffic for approximately four weeks while the eastern side of the roundabout is constructed.

Traffic will be managed by signalised lights at the current intersection or manual Stop/Go by traffic controllers. There may be delays during peak times and please use an alternate route if possible.

Traffic lights will be in place while the roundabout is being constructed.

Detour in place in January 2018

The detour will be in place while the eastern side of the roundabout is being constructed.
