

## 1. Māngere Bridge Village and Swanson Road

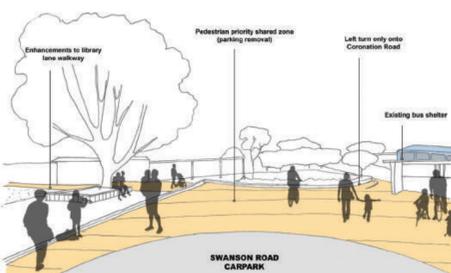

We want to make walking around Māngere Bridge Village safer, easier and more enjoyable. We are investigating making changes to the Swanson Road carpark and the service lanes at the back of the shops on both sides of Coronation Road to provide pedestrian-friendly slow speed zones.

We are also looking at improving connections to the library, playground and Swanson Park by improving crossing facilities at each arm of the village centre roundabouts, to slow traffic and make it safer for people of all ages and abilities to get around.

We are investigating changes to Swanson Road carpark to make this area safer to get around for people on foot. This could include new zebra crossings and improved places for people to walk between the library, the Plaza and Coronation Road. We are looking at restricting the right turn for vehicles into Coronation Road. As part of this improvement, we may need to remove some carparks.

1. What do you think about this improvement?

2. What could make it better?

## 2. Māngere Bridge school zone

We want to make it safer, easier and more enjoyable to walk to and from Māngere Bridge School on Coronation Road, Taylor Road and Domain Road. We are investigating upgrades to some existing crossings and adding improved crossings at intersections with Domain Road and Taylor Road. We want to slow traffic down by changing the road layout and how entering the area looks, by adding trees. Some on street parking could be removed.

## 4. Church Road

We want to make Church Road safer and easier for people walking. We are investigating things that we can do to slow traffic down which could include new crossings and improving the intersections of Church Road with Woodward Avenue and Scott Avenue.

## 3. Mountain View School and Auckland Seventh-day Adventist High School zone

We want to make it safer, easier and more enjoyable to walk to and from Mountain View School and Seventh-day Adventist High School on Mountain Road and Miller Road. We are investigating improving the intersection of Mountain Road and Miller Road and upgrading existing crossings. We want to slow traffic down by changing the road layout and how entering the area looks, by adding trees. Some on street parking could be removed.

## 5. Wallace Road

After (artist's impression)

We want to make Wallace Road safer and easier for people walking. We are investigating things that we can do to slow traffic down which could include new crossings and improved intersections at Wallace Road with Church Road, McIntyre Road and the intersection with Muir Avenue and Taylor Road. We will also look at improving the existing crossing facilities near Waterlea Primary School and slowing traffic down.

**LET'S TALK ABOUT WALKING**

Have your say... on Māngere Bridge walking improvements

Auckland Transport wants to know what you think of plans we have to make it safer, easier and more enjoyable to walk around Māngere Bridge.

MOVING AUCKLAND FORWARD

## Māngere Bridge walking improvements – what do you think?

Auckland Transport is working in your community making it safer, easier and more enjoyable to walk around Māngere Bridge. Late last year we asked your community to tell us how we could improve walking.

We asked about physical improvements we could make to help people walk more in the local area, how we could make it safer and how we could improve connections to places like Māngere Bridge Village, recreation centre, library, schools and parks.

We received lots of good feedback and have used that feedback to create draft plans of the work we could do to improve walking safety around Māngere Bridge.

### Proposed timetable

#### January – March 2018

AT consider all feedback received and start investigating options to make it safer to walk around Māngere Bridge

#### March – September 2018

AT presents the initial designs to the local community

#### September 2018

AT undertake consultation with those directly affected by the proposed changes

#### June 2019 – June 2020

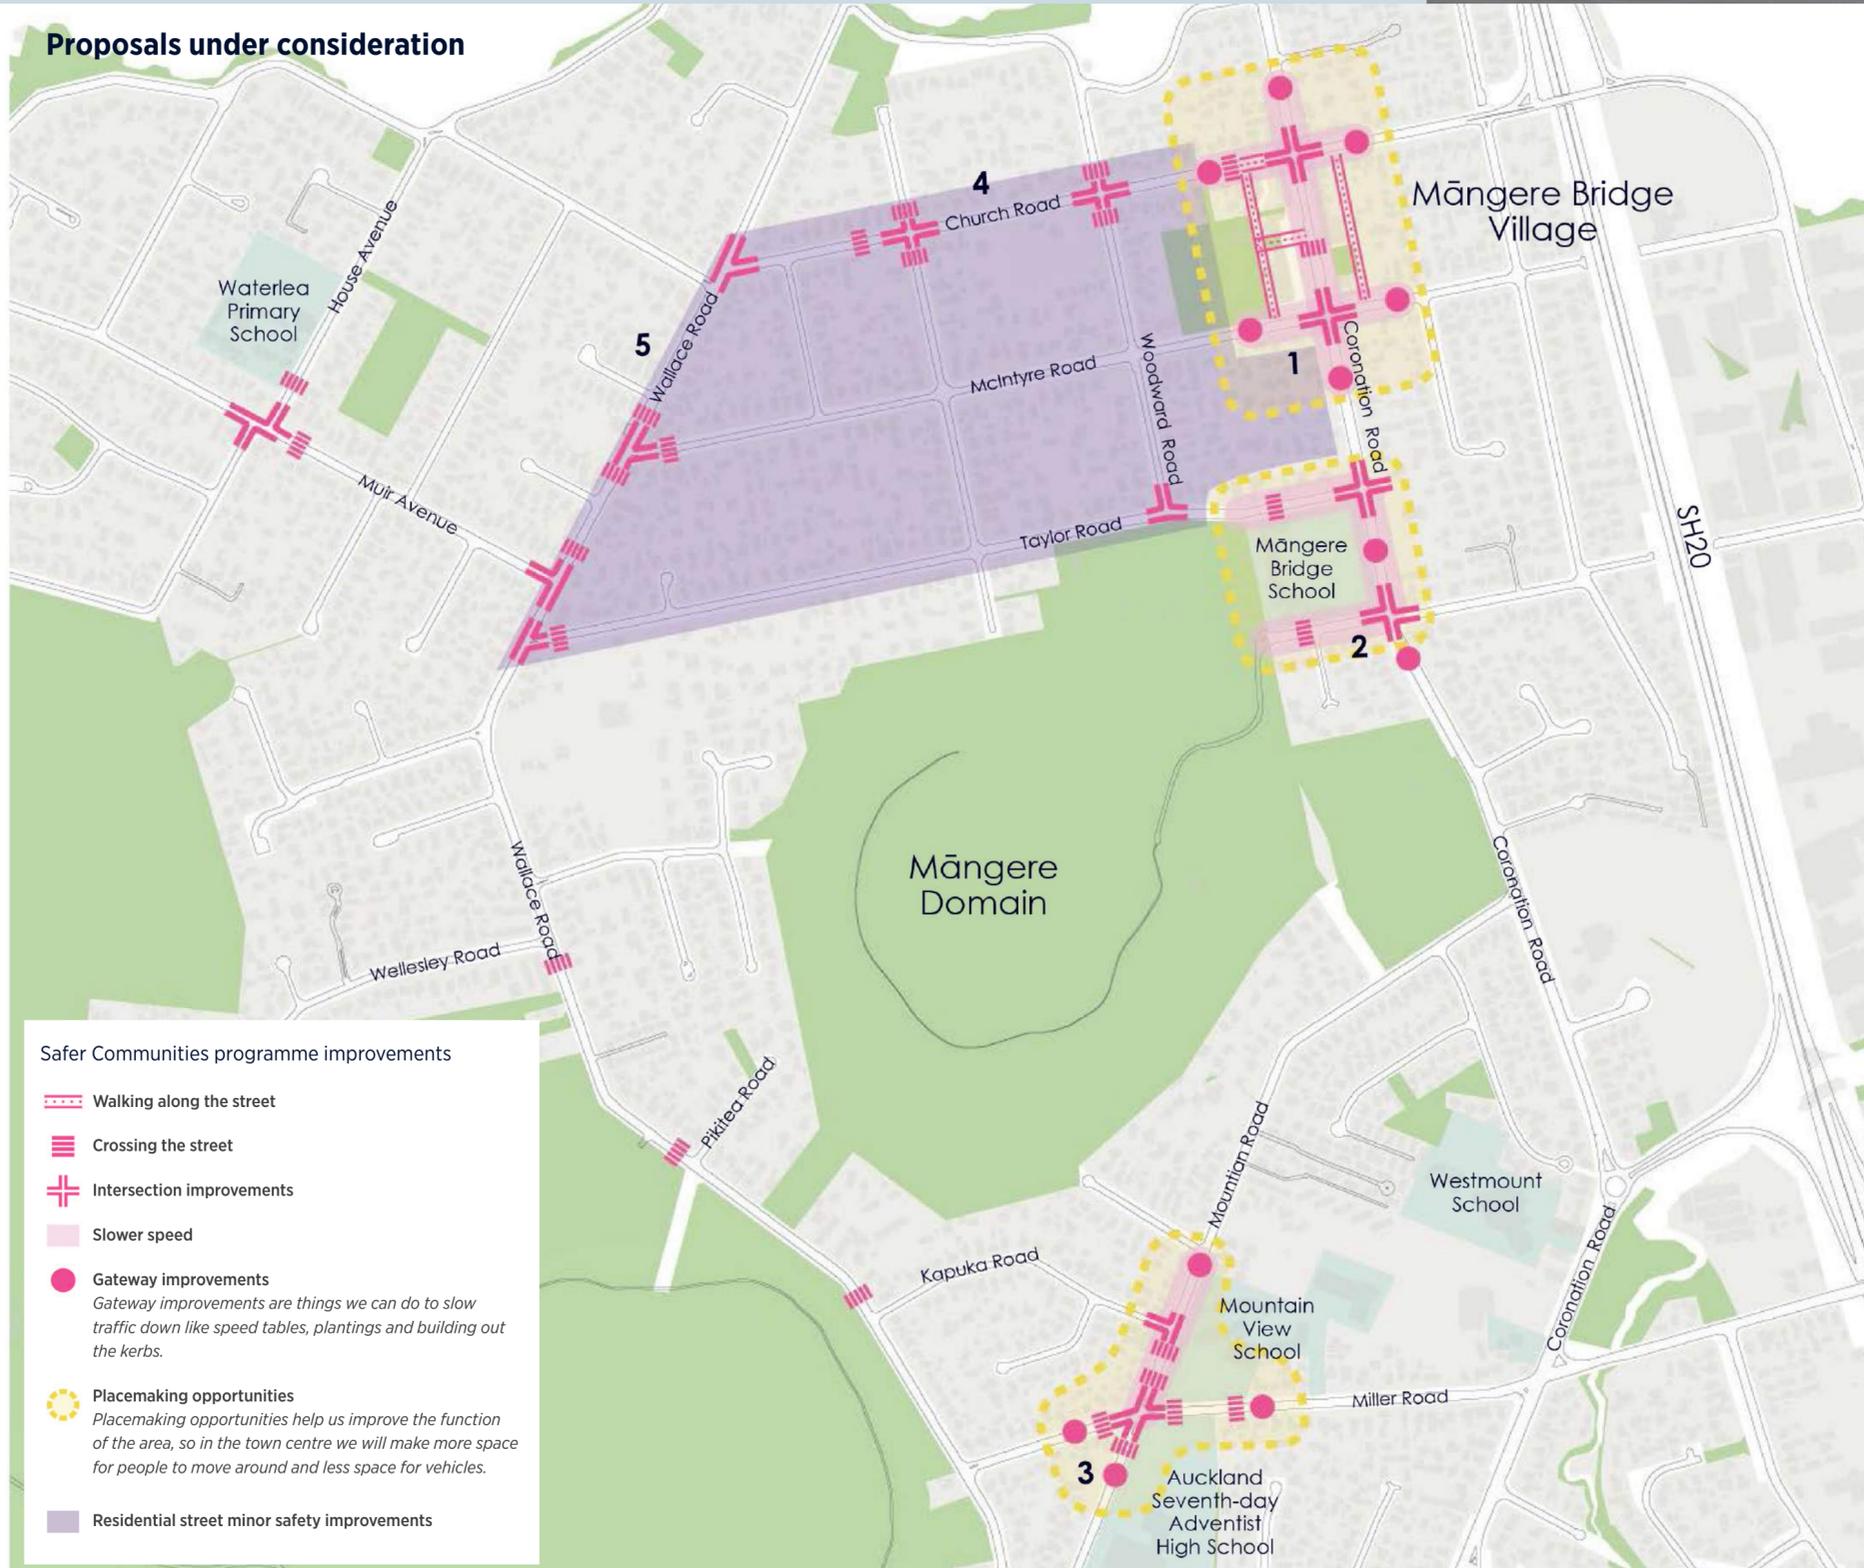

AT will start and complete construction of the changes

#### June 2020

AT works with people in the community to help them understand the changes and to encourage more walking, especially around schools

### Proposals under consideration

#### Safer Communities programme improvements

- Walking along the street
- Crossing the street
- Intersection improvements
- Slower speed
- Gateway improvements  
*Gateway improvements are things we can do to slow traffic down like speed tables, plantings and building out the kerbs.*
- Placemaking opportunities  
*Placemaking opportunities help us improve the function of the area, so in the town centre we will make more space for people to move around and less space for vehicles.*
- Residential street minor safety improvements

Would you like us to contact you with updates about this project?

YES

### Personal information

Name \_\_\_\_\_

Street address \_\_\_\_\_

Suburb \_\_\_\_\_

Post code \_\_\_\_\_

Email \_\_\_\_\_

Phone \_\_\_\_\_

Providing personal details is optional. Providing your postal or email address ensures that we can contact you with updates to the project, including the outcome of the consultation.

PRIVACY: AT is committed to protecting our customers' personal information.

### What will we do with your feedback?

We will use what you tell us to make sure the changes we are planning are in the right places and to come up with more detailed proposals. We will come back to the community with detailed plans and consult with you in September (2018).

### How do I provide feedback?

- Go online to [AT.govt.nz/safercommunities](http://AT.govt.nz/safercommunities) and click the 'Māngere Bridge' button
- Post this form back to us
- If you have difficulty filling in the form, you can call us on **09 355 3553** and our contact centre staff will fill in the feedback form with you over the phone.

### Public feedback is open until 1 July 2018
