

KARANGAHAPE ROAD ENHANCEMENTS CONSTRUCTION UPDATE

ISSUE 1: 24 JULY 2019

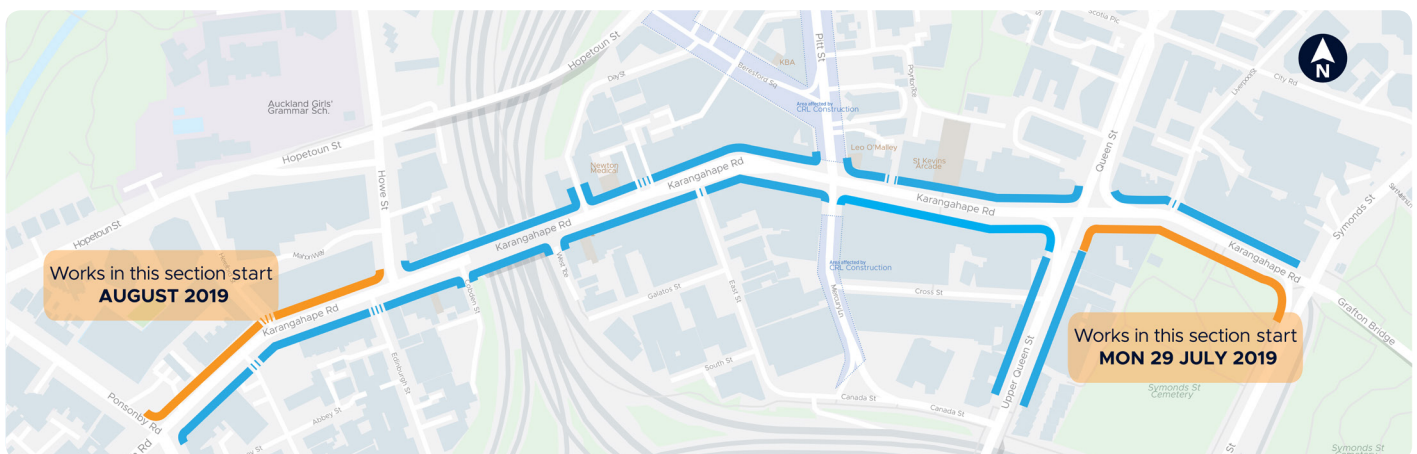

Welcome to the first Karangahape Road Enhancements construction update, brought to you by JFC, the team delivering the physical works. We're excited to be undertaking a series of improvements on behalf of Auckland Council and Auckland Transport to enhance the area's safety and amenity, while also preserving the unique character of Karangahape Road, one of Auckland's most iconic streets.

The enhancements to go in along Karangahape Road have been divided into sections (see below). During the programme, there will be two to three sections under construction, at any one time.

Work will begin on **Monday 29 July 2019** at the Symonds Street end of Karangahape Road, from the cemetery on the corner to Upper Queen Street. This section is expected to take approximately 2 months.

The next section, from the Mobil on the corner of Ponsonby Road to Howe Street will begin in August. We are awaiting approvals to start construction for this section. We will provide notice ahead of construction starting on the other sections of the Karangahape Road Enhancements project.

For more information on parking, and the design and consultation of the Karangahape Road Enhancements project, please visit at.govt.nz/kroad

WHAT TO EXPECT:

- » Temporary fencing along the footpath at each live construction zone at a minimum height of 1.2m
- » Temporary changes to road layout and parking around construction zones (see overleaf for more information)
- » Ground crew and machinery, including diggers and trucks, will be working within the construction areas
- » Our crews will be working on site during the hours of 7am to 7pm Monday - Saturday.
- » Access to businesses and properties will be maintained

GET IN TOUCH:

Throughout the project, we'll keep you updated on what's been achieved, what's coming up, and how you may be affected.

If you have any construction queries during the project, we encourage you to contact us on **0800 KRD JFC (0800 532 573)** or karangahaperoad@jfcltd.co.nz or alternatively, drop by and see us at Blackboard Cafe (295 Karangahape Road) on Tuesdays from 10am - 11am.

We will do our best to mitigate any construction impact or disruption on residents and businesses during this time. We appreciate your patience during construction.

CHANGES TO TRAFFIC MANAGEMENT

Throughout the project, temporary traffic management will be in place around the live construction sites.

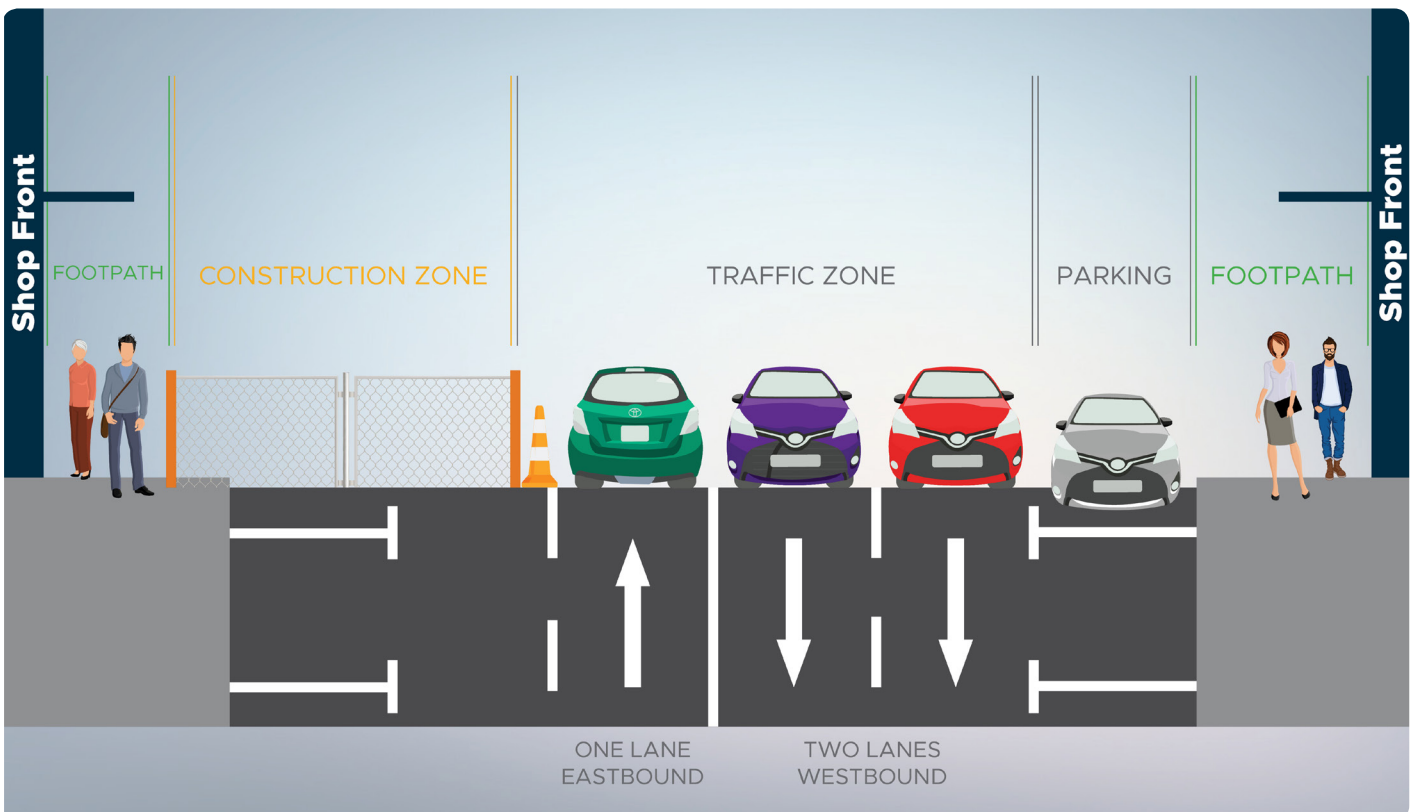

For the safety of road users, pedestrians and our work crews, please carefully follow traffic signage and detours.

Changes include:

- » Cones and fencing around live construction areas, set at a height of 1.2m to maintain clear sight lines to nearby businesses
- » Some works will require higher fences (maximum of 1.8m). These high fences will be removed when no longer required
- » Temporary 30km/h speed limit
- » Signage/VMS boards advising of detours/traffic changes
- » Lane closures of Karangahape Road for construction across the carriageway. These works will be undertaken at night as Karangahape Road is a main arterial route during the day
- » We will be working with cafes and restaurants to accommodate their al fresco dining where possible
- » We will liaise directly with businesses on alternative loading zones.

CROSS SECTION

Below is an indicative cross section of how the construction zone will be set up, looking from Symonds Street down Karangahape Road.

*Pedestrian access will be diverted during footpath reconstruction. Access to shops will be maintained.

BUSES & PARKING

Public Transport

During construction, there will be some changes to bus routes and stops.

For the most up to date information on routes and relocations, please visit at.govt.nz/bus-train-ferry/service-announcements/roadworks-affecting-public-transport/

Parking

Parking will be available on Karangahape Road, away from our live construction areas. Please also make use of parking in nearby side streets and parking buildings.
