September 2019 ▶

The Board approved Vision Zero for Tāmaki Makaurau, a Transport Safety strategy and Action Plan to 2030 and endorsed the Road Safety Programme Business Case.

October 2019 ▶

The Board agreed to make the bylaw in a form that implements, on a staged basis, all proposed speed limit changes except on roads not categorised as high risk and where there is significant preference for the status quo, with adjustments to the speed limits to take account of implementation of enhanced engineered safety features on key arterials in the City Centre. The Board also agreed that officials investigate options for tranche two.

◀ July 2019 and September 2019

The Board approved deferral of considerations of the proposed Bylaw to October 2019 to allow officials time to analyse the high number of submissions.

◀ May 2019

The Board received an update on AT's strategy to inform partners, key stakeholders and Aucklanders of the changes to speed limits that will come into force on 30 June 2020.

◀ December 2018

The Board approved the proposed Speed Limits Bylaw 2019 for consultation.

February 2017 ▶

The Board endorsed the development of an implementation plan for speed management following the release of the NZ Transport Agency Speed Management Guide.

November 2017 ▶

The Board initiated a Business Improvement Review (BIR) into Road Safety. As a result, an accelerated road safety programme was developed.

May 2018 ▶

The Board endorsed an accelerated speed management programme, targeting the predicted top 10% of high-risk locations and roads.
