

Bucklands Beach Safety Improvements

We'd like your feedback on our proposed design to improve pedestrian safety in some key locations in Bucklands Beach.

On behalf of Howick Local Board we are proposing changes to improve pedestrian safety at some key locations in Bucklands Beach.

The changes are designed to:

- Increase safety for pedestrians crossing the road
- Make it easier for people to walk, cycle and scoot around near the beach
- Encourage motorists to travel at lower safer speeds

We are proposing to:

- Install raised zebra crossings, which are crossings on wide, flat speed bumps, at 78A, 71, and 80 on The Parade
- Install a raised zebra crossing on Laings Road where it joins with The Parade
- Improve and extend the footpath on the corner of Laings Road and The Parade
- Encourage motorists to travel at lower safer speeds
- Install 2 speed bumps at 74 and 66 The Parade
- Install a raised zebra crossing with long off ramps for a smooth drive at 24 The Parade
- Install traffic islands on Bucklands Beach Road to improve access to the bus stops

AT Vision Zero

This proposal supports Tamaki Makaurau's commitment to Vision Zero, an ambitious transport safety vision, with the goal of no deaths or serious injuries on our transport system by 2050. This approach acknowledges that as people we all make mistakes, however a mistake should not mean someone dies or is seriously injured on our roads. It's also an approach that values everyone using the road, not just those in vehicles. It is about caring for more vulnerable road users like people walking or cycling, children and the elderly. Vision Zero is the international benchmark for transport safety.

Help us by telling us what you think.
