16 October 2026

We're upgrading the intersection on Grand Vue Road and Hill Road to improve safety and traffic flow

Kia ora,

We are upgrading the intersection on Grand Vue Road and Hill Road, Manurewa, to improve safety, accessibility and traffic flow.

The changes include footpath improvements, road surface and stormwater upgrades, along with the installation of traffic signals, pedestrian refuge islands and additional lanes on Grand Vue Road towards the motorway. These upgrades will improve safety and traffic flow in the area, including access to the State Highway 1 on-ramp.

Work will take place overnight between 25 October and 9 December 2026, from 9pm to 6am. For more information on this project, please scan the QR code.

Factors such as wet weather could mean a delayed start. If the delay is significant, we will notify you. Here is what you need to know about the work happening near you:

Where	• Between numbers 71 Grand Vue Road and 39 Hill Road (see work location map below)
When	• 25 October to 9 December (between 9pm and 6am)
What we're doing	• Footpath, road surface, signage, and stormwater improvements. • Installing traffic signals on Grand Vue Road and at the intersection with Hill Road to enhance pedestrian safety.
How it may impact you	• On-street parking will be limited during works. You may need to either park on your property or on a side road and walk to your property. • Lanes on Grand Vue Road and Hill Road will be reduced. • Works will create noise and vibration; we'll do our best to keep noise levels down.
How travel is affected	• Various detours will be in place to redirect traffic around the work site throughout this period, which may cause delays. Please follow all signs carefully when driving around the works area. • Temporary bus stops will be in place on Dennis Road as stops 6548, 6966 and 2234 will be unavailable during works.
