We're building a new bus layover facility on Mahuru Street to improve the bus network in Newmarket

Kia ora,

We are building a new bus layover (off-road parking) facility at 1-3 Mahuru Street to improve the bus network in Newmarket. When finished, this will relocate most of the existing bus parking spaces off Mahuru Street, allowing for more efficient bus operations and supporting future growth and electrification.

Works will take place from early October 2026 to late March 2027, between 7am and 7pm. For more information on this project, search 'Mahuru Street new bus layover facility' or scan the QR code.

Factors such as wet weather could mean a delayed start. If the delay is significant, we will notify you. Here is what you need to know about the work happening near you:

Where	• At 1-3 Mahuru Street, Newmarket (see work location map on overleaf) ○ At certain times during the construction, works will be required on Mahuru Street that may impact traffic. These will be communicated with more details closer to the time.
When	• From early October 2026 to late March 2027, between 7am and 7pm
What we're doing	• Building a new bus layover facility at 1-3 Mahuru Street to replace the existing on-street bus parking. • Moving current on-street bus parking spots to the new facility, freeing up more space on the road
How it may impact you	• On-street parking outside 1-3 Mahuru Street will be limited during works. You may need to either park on your property or on a side road and walk to your property. • Works will create noise and vibration; we'll do our best to keep noise levels down.
How travel is affected	• If required, traffic controllers will be on site to guide you around the work site. Please follow all signs, light signals and traffic directions.
