Final linemarking on Great North Road in January 2026

Kia ora,

We are nearing the end of the night works for resurfacing Great North Road. As well as laying the new surface, we are also applying new linemarking. Some linemarking – like the bus and cycle lane green markings - cannot be applied until the new asphalt has settled, so this work will be completed in January 2026.

Where	<ul style="list-style-type: none"> Great North Road from near Crummer Rd to Newton Road (see map below)
When	<ul style="list-style-type: none"> 5 January 2026 – 21 January 2026 Monday – Thursday nights. There may be work on Sunday nights if there are delays due to bad weather or other complications. 8:00pm – 4:00am
What we are doing	<ul style="list-style-type: none"> Installing high friction surfaces on new signalised crossings Applying a thermoplastic seal over linemarking Installing grey paint on new bus stops and green paint in bus lanes and cycle lanes

Night works – how they may impact you

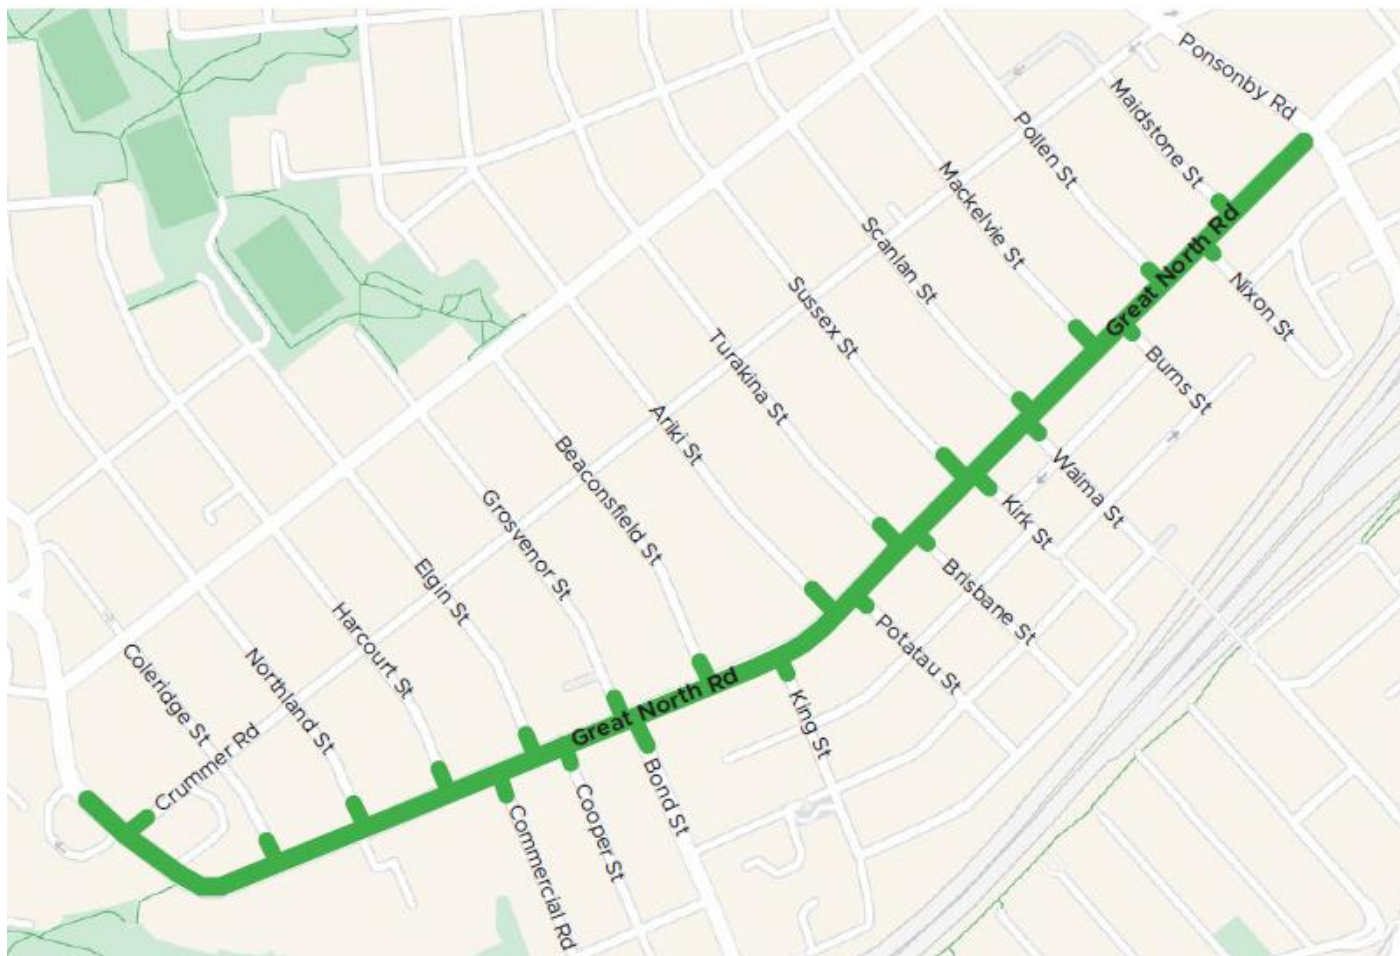

- Great North Road will be reduced to one lane of traffic in each direction during night works. Side roads will be closed progressively to install the green paint and reopened once the paint dries. Vehicles may need to access side streets from the next open intersection.
- Line marking is not particularly noisy work but there will be some noise from vehicle movements and machinery.**
- Work will be staggered so we won't be working in all locations at once.
- The night crew are aware of nearby residents and will limit unnecessary noise.
- No on-street parking will be available near work sites. You may need to park on your property or on a side road and walk to your property.

Linemarking is weather dependent and can only be done when the road is completely dry. Wet weather may mean work is postponed to the next available dry night.

Thank you for your patience and understanding while we complete this work.
