

28th July 2025

Links to Glen Innes Project and Road Maintenance Update

Kia ora,

Our role is to ensure that people can move around the city easily and safely. Our contractor Downer, on behalf of Auckland Transport, plan to deliver upgrades on West Tamaki Road, Glen Innes.

Where	106 West Tamaki Road, Glen Innes. We'll work on one side of the road at a time to keep traffic moving.
When (start date)	Monday 4 August 2025. We'll do our best to start the work on time. Factors such as wet weather could mean a delayed start. If the delay is significant, we'll notify you.
Hours of work	We will be working a combination of day and night shifts - Monday to Saturday . The road closure will remain in place 24/7 whilst these works are happening.
For (duration)	Approximately 4 weeks .

The work we're doing

We are delivering the Links to GI Cycleways project alongside routine road maintenance and renewal works. On West Tamaki Road, we'll be installing new drainage and a raised pedestrian crossing.

These upgrades improve the safety of pedestrians and cyclists traveling through the area and will make it more accessible for people travelling on public transport once completed.

Once work on West Tamaki Road has been complete, we will resume work on Line Road (between Weybridge Crescent and the Line/West Tamaki intersection).

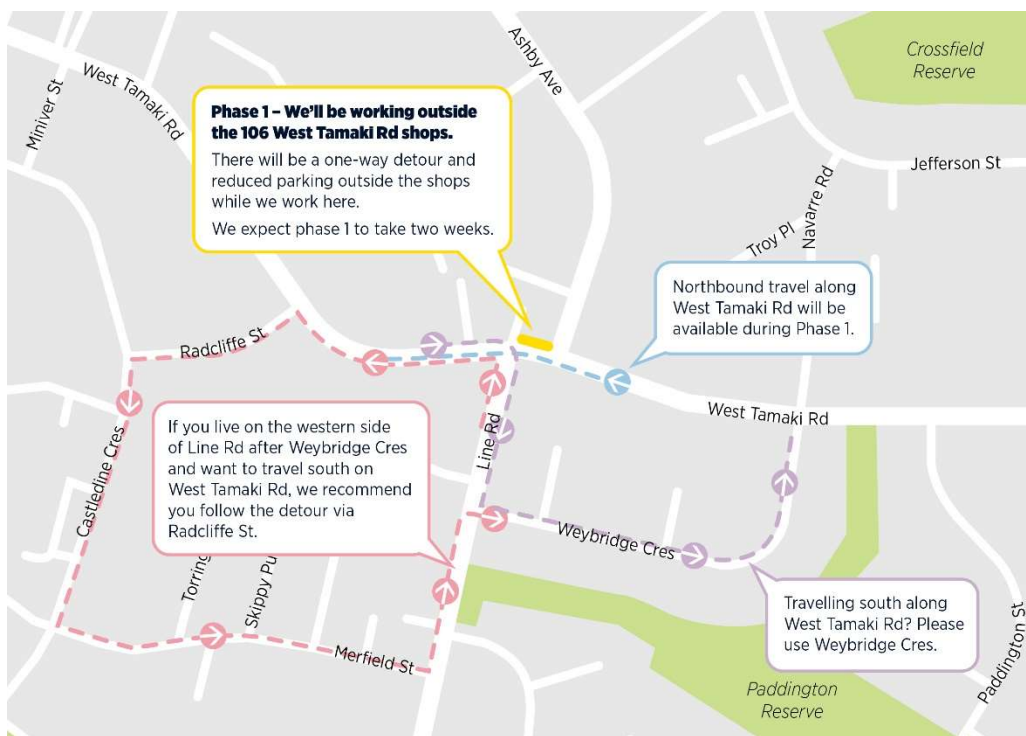

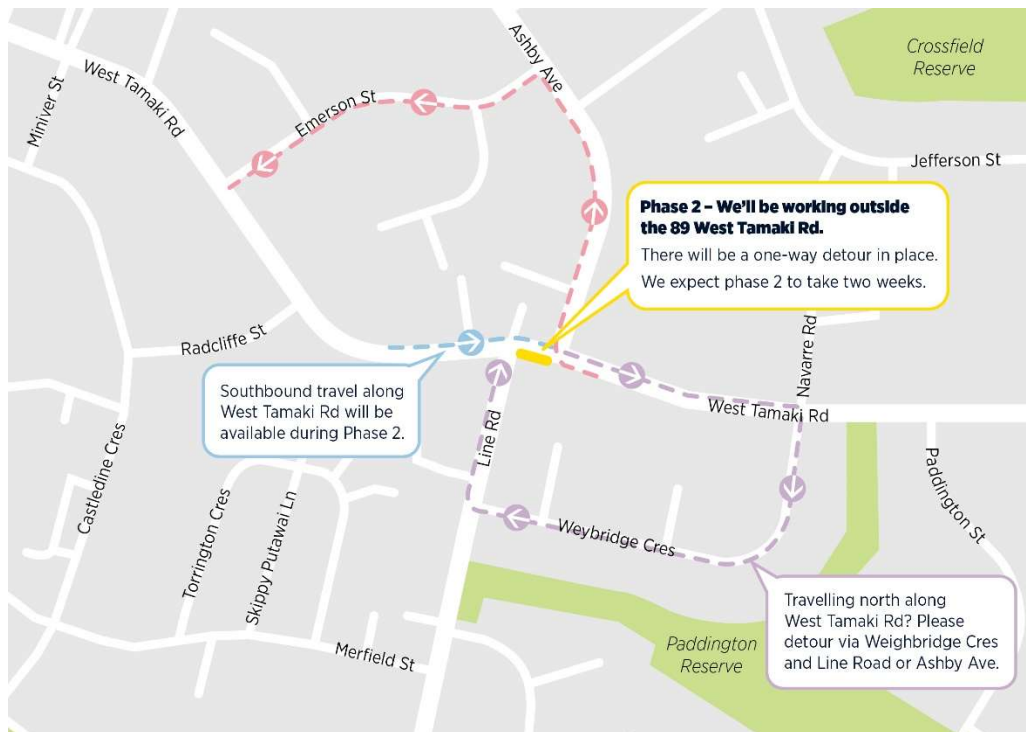

We'll handle traffic flow in and out of the area, and any detours

There will be sectional road closures in place while we carry out the works as well as a one-way detour. We do this to keep traffic moving, parking available, and to keep people who use the roads and footpaths safe.

On-street parking will be limited while we carry out the work. You may need to either park on your property or on a side road and walk to your property.

Pedestrian access, as well as access to properties and shops will be maintained at all times.

Please refer to the following maps for where we'll be working and how to travel through the area.
