

14 October 2024

We need to do some work in your neighbourhood

Kia ora,

Links to Glen Innes Cycleways Project and Road Maintenance - Notification of Works

Auckland Transport and their contractor Downer are set to start work at the Morrin Road and Stonefields Avenue roundabout in St Johns.

We have aligned our works with the current Vector future proofing works to minimise traffic disruption in the area as much as possible.

Where	Morrin Road and Stonefields Avenue Roundabout, St Johns Auckland
Start Date	21st October 2024 We'll do our best to start the work on time. Factors such as wet weather could mean a delayed start. If the delay is significant, we'll notify you.
Hours of work	We will be working a combination of day and night shifts - Monday to Saturday, the closure will remain 24hrs.
Duration	6 weeks (weather dependent)

The work we're doing

We will be delivering routine road maintenance and renewals work alongside the Links to GI cycleway project.

The Links to GI cycleway project includes raised pedestrian crossings and creating a two-way cycle lane. These upgrades improve safety for pedestrians and cyclists traveling around this area and makes it more accessible for people catching public transport.

The map on the next page shows where we'll be working.

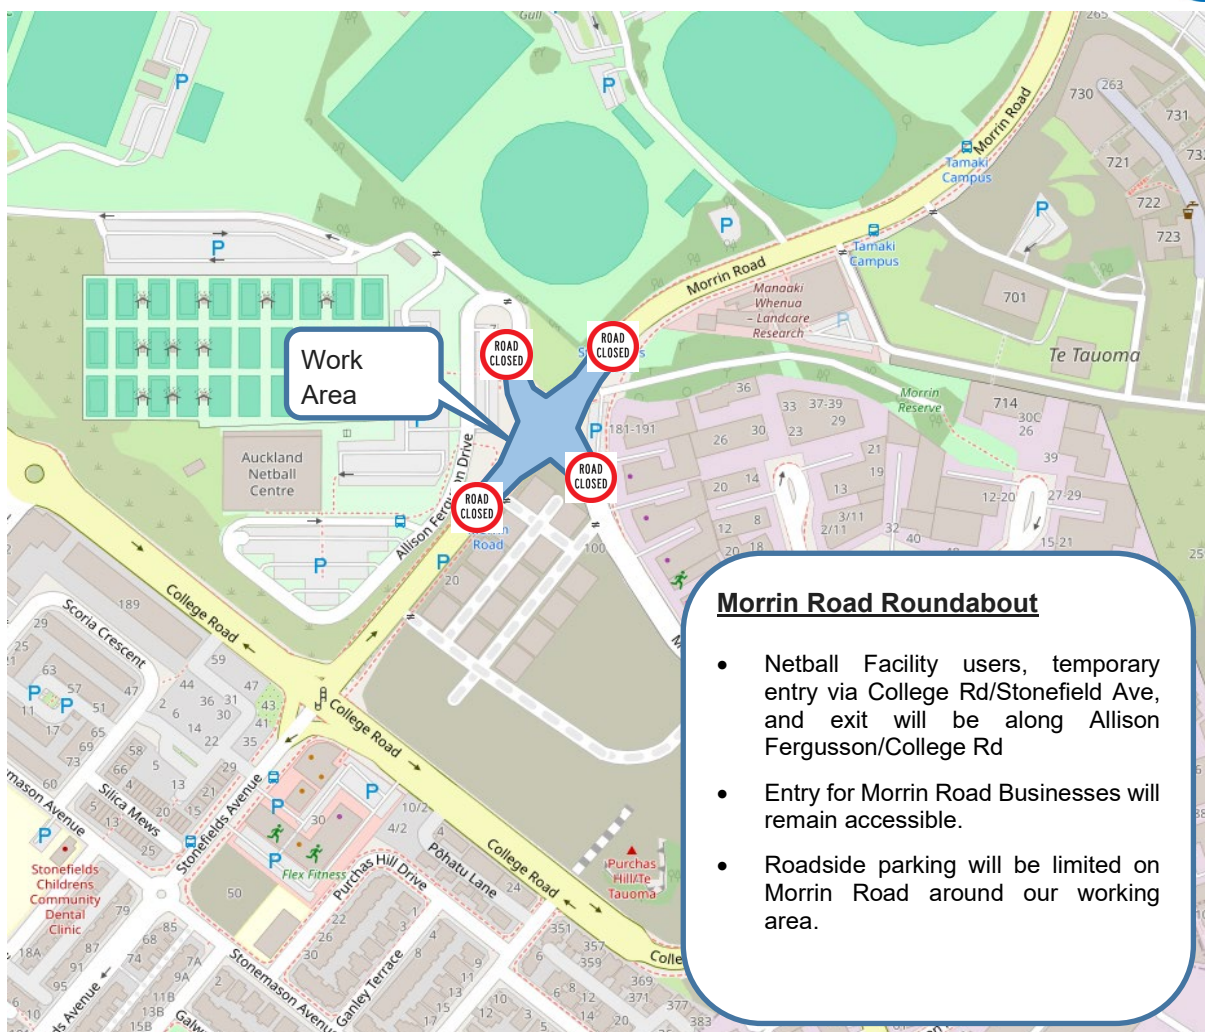

We'll handle traffic flow in and out of the area, and any detours

We will need to close a section of Morrin Road and set up detours. Please plan ahead and follow all signs, light signals and traffic directions.

Traffic controllers will help to manage vehicle access for impacted businesses and Auckland Netball court users.

Pedestrian access will remain available at all times and pedestrians will be asked to use a temporary walkway along the worksite with the help of our traffic controller.

Please note, roadside parking will be limited on Morrin Road near our worksite.

Thank you for your understanding and co-operation while we carry out these essential works
