

- Introduction
- Personal experience
- Community support
- Reasons to support this project

- Spent 10 years walking my children to school at St Thomas's
- Both my children attend Selwyn College
- Hundreds of children cross the valley every day to get to school

- Previously selected by OLB as their flagship project
- Backed by the Council's Governing Body
- Massive community support
- Support from Selwyn and St Thomas school
- Support from Ngāti Whātua Ōrākei

- ✓ Good for the whole community; school children, commuters getting to the train and further afield, people using St Johns/Kohi Rd, recreation
 - ✓ Great for the environment and in line with TERP
 - ✓ Property bought
- And with the rail line down it's the perfect time to install the tunnel

Small connection – big impact

Let's get Gowing Drive connected to the shared path to provide safer connected communities
