Work Notification - road maintenance in St Georges Bay Road, Parnell

Kia ora,

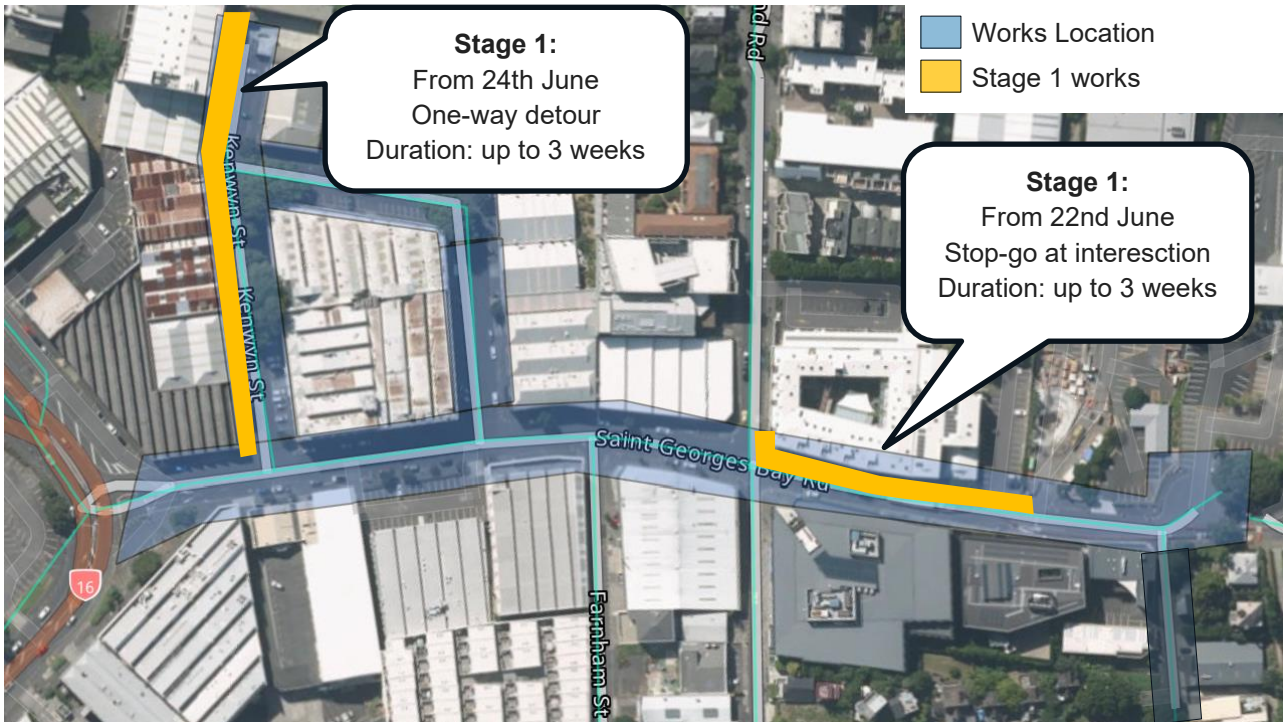

We'd like to let you know about the upcoming road maintenance and project work in St Georges Bay, Parnell. Downer will be carrying out these works on behalf of Auckland Transport (AT).

The work we're doing

| | |
|---------------------|--|
| What we'll be doing | <ul style="list-style-type: none"> • Footpath, Kerb, channel and drainage improvements • Pedestrian crossing works including building 3 new zebra crossings with kerb extensions (2 at the Cleveland and Garfield Street intersection and one outside 114 Saint Georges Bay Road) • Upgrading the rideshare and mobility parking at the intersection. • Resurfacing the road and new line marking. |
| Where | <p>St Georges Bay, Parnell, Auckland</p> <p>The drawings overleaf show where we'll be working. Work area is indicative.</p> |
| When (start date) | <p>22 June 2026</p> <p>Factors such as wet weather could mean a delayed start. If the delay is significant, we'll notify you.</p> |
| Hours of work | 7am to 7pm Monday to Saturday |
| For (duration) | 6 months |
| What to expect | <ul style="list-style-type: none"> • Reduced on-street parking will be in place within and around the work area. "No parking" cones will be installed approximately 24 hours prior to works commencing. • Temporary footpath detours will be implemented while works are underway, with clear signage provided to guide pedestrians safely. • Some noise should be expected, particularly during the removal of existing footpaths and excavation works. • Works will be delivered in smaller stages to maintain access and on-street parking where possible. In some cases, works may occur simultaneously at multiple locations to minimise overall disruption and shorten the programme duration. • We will work closely with residents and businesses to manage access throughout the works. Please note that during concrete pours, there will be a required curing period where access may be temporarily restricted. |

Updates will be provided as works progress, for further information or to be added to the distribution for more regular works update please email Stakeholder Manager anmarie.holst@downer.co.nz

Works Location Map

Temporary Traffic Management

We will use a mix of temporary traffic signs (like stop/go signs) traffic lights, one-way detours and a lower speed limit. We do this to keep traffic moving and keep people who use the roads and footpaths safe. Traffic controllers will help to manage vehicle access. Please follow all signs, light signals and traffic directions.
