Prictor Street and Ingram Street Intersection – Proposed Safety Improvement

Kia ora,

We're planning safety improvements at the intersection of Prictor Street and Ingram Street in Papakura to make it safer and easier to use for everyone, whether you're walking, cycling, or driving. The proposed roundabout will help make it clearer and safer for people to move through the intersection.

Why are the changes needed?

Between 2020 and 2024, 10 crashes were recorded at this intersection. Most involved vehicles turning, and two involved people walking. These safety improvements are proposed to reduce the risk of crashes and make the area safer, more comfortable, and better connected for people who live, work, study, or travel through the area.

What we're planning to do before June 2027

Here's what we're planning to do:

- Install a new mountable roundabout to help slow traffic and support safer crossing and turning movements from Ingram Street.
- Provide three new pedestrian crossings: two pedestrian refuge crossings at the roundabout on Ingram Street east and Prictor Street, and one signalised crossing on Ingram Street west, outside 30 Prictor Street.
- Widen footpaths, realign kerbs and berms, and update road markings and signs to support the new layout.
- New high-friction surfacing before the new signalised crossing for the eastbound traffic on Ingram Street.
- Reconstruct the driveway outside **5 properties**.
- Install new broken yellow lines (NSAAT) to keep parked vehicles clear of the crossings and improve visibility for pedestrians and drivers. As a result, **8 on-street parking spaces** will be removed on Ingram Street, and **3 on-street parking spaces** on Prictor. For details, please visit the website or scan the QR code below.

You can see where these changes will be made on the attached plan.

How this will benefit your neighbourhood

These changes are designed to make the intersection safer, clearer and more convenient for everyone using the area.

- Better traffic flow and reduce delays on Ingram Street.
- Safer and easier turning manoeuvres at the intersection.
- Safer crossing environment for people walking through the area.
- A clearer, more visible road layout.
- Improved visibility and lower speed environment, enhance safety for all road users.

Share your thoughts up until Friday, 2 October 2026.

If you have any concerns, suggestions or support for these improvements, let us know by emailing engagementfeedback@johnstaff.co.nz with "Pictor-Ingram" in the subject line.
